

## ENGINEERS REGISTRATION BOARD

### LIST OF BACKLOG PENDING APPLICATIONS

---

Our records show that the applicants whose names appear in the list below once submitted applications to the Board for registration in various categories. The applications were processed and applicants informed on the shortcomings and necessary requirements that were missing in order to enable the Board finalize the same. To-date the applicants have not complied with the various Board directives.

***The Board wishes to reiterate that it is illegal to practice engineering in Tanzania if not registered with the Board.***

The applicants' failure to comply with the Board's directives implies that they have all along continued to practice engineering in the country illegally. The Board therefore gives up to June 30, 2008 for the applicants to contact the Board or submit the relevant reports or documentation as earlier directed. Alternatively the applicants should stop practicing engineering.

*Note: If your name is erroneously included in the list while you have already complied with the Board's directives notify the Board through the addresses in ERB Website.*

Further, the Board hereby notifies all the concerned that:

*In the event that no feedback is received from the applicants after June 30, 2008, the Board will assume that the applicants are either not interested in engineering or not practicing engineering or are no more. The Board will treat these applications as null and void and the applicants, will have to submit fresh applications if required by the law to process for registration.*
