Engineers demographics are gender wise lopsided, 1:7 in favor of boys. ERB is committed to gender equality in engineering profession. ERB has set a goal of achieving gender equality within the next five years # 50/50 by 2030. The picture above Hon. Dr. Samia Suluhu Hassan with female students during the opening of a School in Zanzibar. Insert ERB school outreach at Njombe Girls Secondary School.

In the past 4 years, infrastructure have been improved for all schools in Tanzania, in addition more than 800 new primary and secondary schools have been built. ERB has tended a hand to support the government investment in Education. July, 2024 ERB launched the STEM Support Programme (SSP) to join the government in improving teacher; student ratio and increase access to book and laboratories. The picture above shows Hon. Dr. Samia Suluhu Hassan with students during the opening of a School in Zanzibar. Insert Kyerwa and Kagera River Secondary Schools, where ERB is sponsoring twenty (20) volunteer science teachers for duration of 2 years.

ERB is an active participant in the International Engineering arena. ERB is a signatory to the EAC Mutual Recognition Agreement (MRA). South Sudan joined the MRA in 2024. South Sudan demonstrated to have standards sufficiently similar to existing signatories. The signing ceremony took place in Arusha, on 4th October 2024, with Eng. Bernard Kavishe (second from right), as the current Chairman of the MRA Coordination Committee.

Professional Engineering is far beyond a good degree and hands on experience, correct and positive attitude is the most critical attribute of any Ethical Professional. Guided by a strong ethical framework, engineers dedicate themselves to making decisions that prioritize safety, health, fairness, and sustainability, affirming their duty to society and the Profession. "Oath taking is enrichment in Engineers Registration Act, Cap. 63.

ERB is aware of an intrinsic knowledge gap in Engineering Profession that can only be resolved by industry. ERB has therefore established a School of Professional Engineering and Leadership (SoPEL) a platform for Engineers to gain and share professional knowledge and leadership skills. In the Picture Above is the first "Training of Trainers" course on Green Infrastructure Design, Part 1, conducted at the SoPEL with generous support of the World Bank at the ERB Morogoro offices on 25th November 2024. Insert site visit was part of the course.
